HEALTH PROFESSIONAL'S STATEMENT OF NEEDS

(Please read the *Letter to Healthcare Provider* on the reverse side.)

This statement is to be completed by the *Physician, Psychologist or Licensed Clinical Social Worker* providing the verification and treatment of the individual listed below whose condition requires his/her absence from school for a period of **ten consecutive school days or longer**.

Student's Name		Student's School Name	
Diagnostic Statement			
Based upon the above diagnosis, why is the student unable to attend school?			
How long will the student require Home & Hospital Services?			
Start Date:		End Date:	
Indicate any limitations in the provision of educational services:			
Is there a risk of contagion?		Yes	No
If yes, indicate level of contagion and measure or precautions to be followed by the Home & Hospital teacher:			

Name and Address of Healthcare Professional

 Name (Please Print)

 Phone Number

 Street Address

 City, Zip

 Signature of Physician or Healthcare Professional

Dear Healthcare Provider:

Please consider carefully any recommendation you make concerning the referral of a patient for Home & Hospital Services. The long-term Home & Hospital program is designed to meet the basic academic needs of a student who is unable to attend school for a period of forty-six consecutive school days or longer due to medical or emotional reasons.

The elementary Home & Hospital student will be provided work by the classroom teacher. The secondary Home & Hospital student will be provided with online classes from Utah Students Connect (an online program created and supported by a consortium of districts along the Wasatch Front) that will help the student continue to earn credits towards graduation. The student will have access to the general education curriculum and a limited number of elective classes. Utah Students Connect does not offer Advanced Placement, Concurrent or Honor Classes. A Home & Hospital teacher will meet with the student for two hours a week to help with the student's online assignments.

If the student is diagnosed as having an emotional disorder (i.e. depression, anxiety, school phobia, etc.), please specifically list the factors that would interfere with the student's ability to function in a school setting. Also note that the student may attend up to and including 50% of their scheduled classes at school and still qualify for Home & Hospital.

We know that attending school and socializing with peers is an important part of a student's education. Therefore, if a student is able to continue with a class or two (up to four classes) at school, we will add the online Utah Student Connect classes for the remainder of their schedule.

In the case of pregnancy, Jordan School District offers a Teen Parent program at Valley High School (801-572-7035). The Home & Hospital program should be recommended only in the event that the pregnant student is medically unable to attend the Teen Parent program.

If, after due consideration, you feel that the Home & Hospital program is appropriate for your patient, please complete the Statement of Needs form, including the start and end date, and then return the form to the Student Support Services department at the District Office, located at 7387 S. Campus View Dr., West Jordan, 84084.

Sincerely,

Sharon Jensen, M. Ed.
